

ClearConso

Modern Web-Based Financial Consolidation Platform

Close faster. Control every step. Report with confidence. ClearConso transforms financial consolidation into a streamlined digital process: one secure workspace to collect reliable data, coordinate contributors, automate recurring adjustments and deliver insight-ready reporting. It gives finance teams the speed, structure and transparency they need to manage the close with confidence.

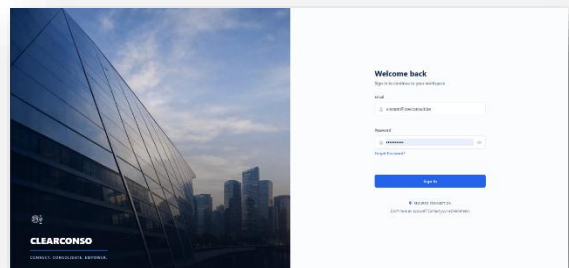

Web-based No local installation or desktop dependency	Controlled Workflow, validation and audit-ready traceability	Insight-driven Reporting, analytics and embedded AI assistance
--	---	---

1. A secure cloud workspace built for modern consolidation

Create a single source of truth for every user, entity and consolidation task. ClearConso removes deployment friction, strengthens governance and gives finance leaders immediate visibility over the full consolidation process—without adding complexity for local contributors.

Built for security, adoption and IT simplicity

- Full **OpenID Connect** support for Single Sign-On (SSO)
- Integration with Azure AD, Google, Keycloak, and other identity providers
- Role-based access control and audit-ready traceability

A user experience built for finance

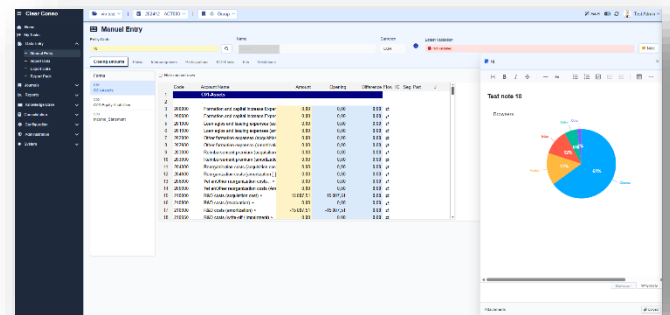

- Intuitive, fast, browser-based interface
- No Excel add-ins or desktop dependencies
- Consistent navigation across all modules

2. Guided data collection that improves quality at the source

Improve data quality before it reaches group finance. ClearConso turns entity submissions into a guided digital experience with structured forms, embedded controls and contextual knowledge, helping contributors submit complete, consistent and well-documented information the first time.

Capture, validate and explain data in context

- Dynamic online forms for local entities
- Online validations and controls
- Notes, attachments, and contextual help
- **Embedded Knowledge Base** to centralize all information related to entities and specific operations

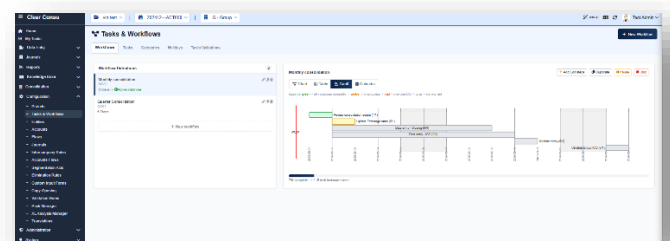

3. Workflow orchestration that keeps the close moving

Keep the close moving from day one to final sign-off. ClearConso replaces disconnected follow-up with a transparent workflow layer where responsibilities, deadlines, approvals and bottlenecks are visible at a glance.

Keep every participant aligned

- Clear assignment of tasks to entities and users
- Real-time progress tracking
- Clear visibility on bottlenecks, approvals and outstanding actions

ClearConso supports complex group structures, reporting dimensions and consolidation rules in a configuration framework that remains clear, flexible and easy to maintain.

Configure the model around your organisation

- Entities & consolidation scope
- Chart of accounts & account-flow mapping
- Elimination rules
- Segmentation axes (products, departments, etc.)
- Journals, templates, and validation rules

[illegible]

The screenshot shows the AWS IAM console 'Groups' page. The 'Groups' list table contains the following data:

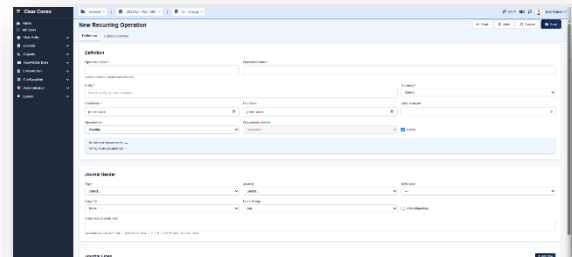

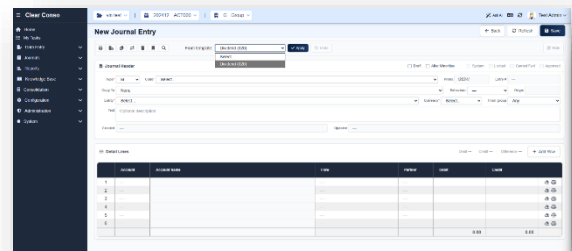

Name	Type	Path	Users	Policies	Attached Policies	Groups	Permissions Boundary	Status
AmazonECS-TaskRole	Managed	/	0	AmazonECS-TaskRolePolicy	AmazonECS-TaskRolePolicy	0		Active

5. Automation that turns recurring work into controlled routines

Industrialise repeatable tasks and reduce manual effort. ClearConso turns recurring journals, adjustments and consistency checks into controlled routines that improve speed, accuracy and auditability across every closing cycle.

Automate repetitive consolidation work

- Pre-configured adjustment templates
- Recurring operations (monthly, quarterly, yearly)
- Automatic journal generation
- Built-in consistency checks

6. Reporting that turns consolidated data into confident decisions

Give stakeholders answers, not just figures. ClearConso connects drill-down analysis, reconciliation views, pivot capabilities and Excel-ready outputs so finance teams can explain performance, investigate movements and support decisions with trusted data.

From drill-down analysis to Excel-ready outputs

- **Online pivot tables** with multi-dimensional analysis
- **Consolidation reserves follow-up with drill down**
- **Dividends follow-up**
- **General Ledger**
- **Intercompany reconciliation** with automated corrections
- Excel exports
- And much more...

This screenshot shows a 'Standard Reports' window in a software application. It displays a table with multiple columns, including 'Account', 'Debit', 'Credit', and 'Balance'. The data is organized into a grid, with some rows highlighted in blue. The interface includes a sidebar with navigation options and a top bar with search and filter controls.

This screenshot shows a 'Pivot Report - Conso' window. It features a complex table with many columns, likely representing different financial metrics and categories. The data is presented in a detailed, multi-column format, with some rows highlighted in blue. The interface includes a sidebar with navigation options and a top bar with search and filter controls.

This screenshot shows a 'Consolidation Reports' window. It features a detailed table with columns for 'Opening amount', 'Profit/Loss amount', 'Dividend/Paid amount', 'Dividend/R... amount', 'Transfers amount', 'Comes... amount', 'Others amount', 'TOTAL amount', 'Closing amount', and 'DIFF... amount'. The data is presented in a multi-column format, with some rows highlighted in blue. The interface includes a sidebar with navigation options and a top bar with search and filter controls.

7. AI-ready consolidation assistance on your terms

Bring AI into consolidation without locking your organisation into a single provider. ClearConso's AI-ready architecture can connect to preferred models and use your documentation to support explanations, guidance and analysis inside the consolidation workspace.

AI assistance aligned with your environment

- Connect **any AI provider**: Google, OpenAI, Groq, Cerebras, Ollama (local), and more
- Ingest customer documents into the private knowledge base
- Context-aware assistance for consolidation rules, explanations, and analysis
- AI-powered insights directly embedded in the interface

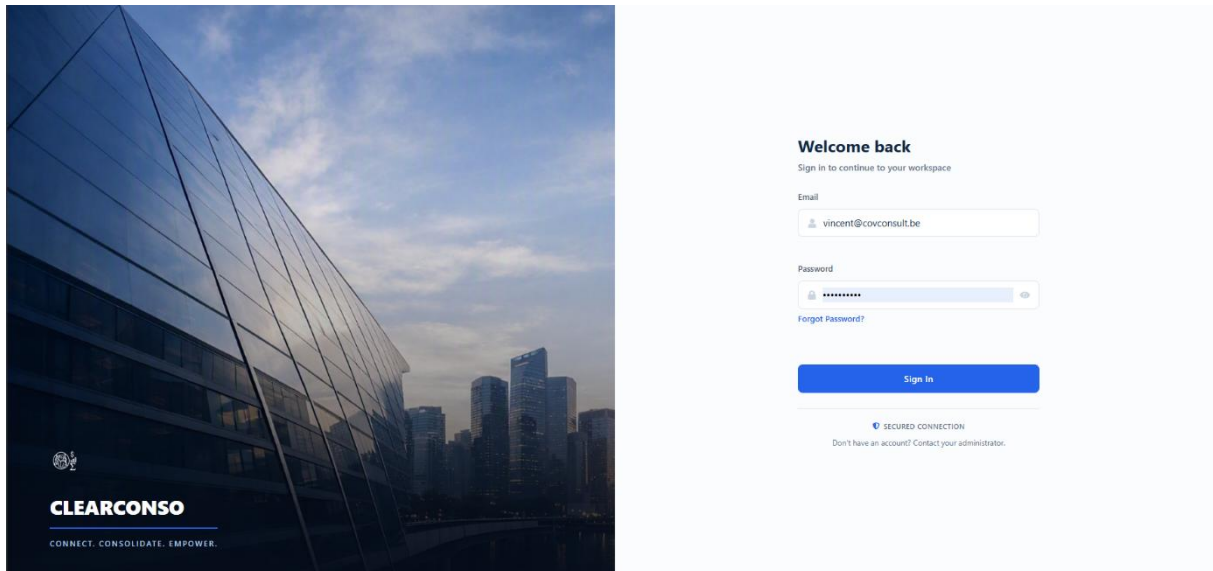

ClearConso in one sentence

ClearConso is the consolidation platform that helps finance teams close faster, collaborate better and transform reporting into trusted business insight.

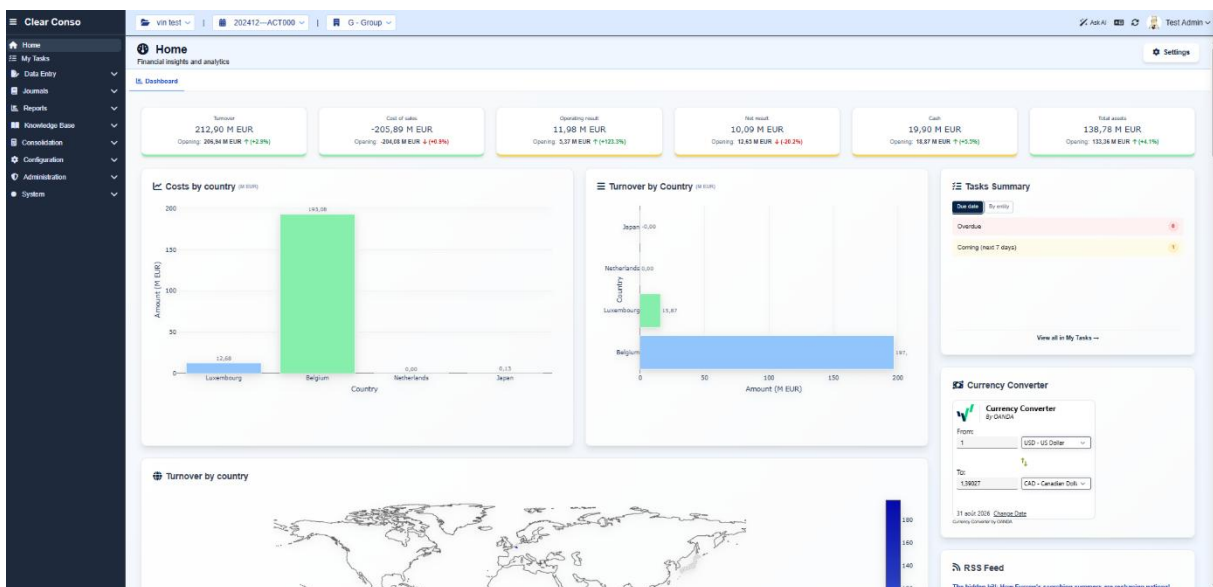

- a secure web-based platform,
- intelligent online data entry,
- structured workflows,
- automation of adjustments,
- advanced reporting,
- and a flexible AI integration layer.

Ready to close faster and lead with confidence? ClearConso gives finance teams the control, automation and insight they need to modernise consolidation—turning a complex closing process into a predictable, transparent and value-adding workflow.
